# The House Of Rothschild: Volume 1: Money's Prophets: 1798-1848

## Synopsis

In his rich and nuanced portrait of the remarkable, elusive Rothschild family, Oxford scholar and bestselling author Niall Ferguson uncovers the secrets behind the family's phenomenal economic success. He reveals for the first time the details of the family's vast political network, which gave it access to and influence over many of the greatest statesmen of the age. And he tells a family saga, tracing the importance of unity and the profound role of Judaism in the lives of a dynasty that rose from the confines of the Frankfurt ghetto and later used its influence to assist oppressed Jews throughout Europe. A definitive work of impeccable scholarship with a thoroughly engaging narrative, *The House of Rothschild*™ is a biography of the rarest kind, in which mysterious and fascinating historical figures finally spring to life.

## Book Information

Paperback: 544 pages

Publisher: Penguin Books; Revised ed. edition (November 1, 1999)

Language: English

ISBN-10: 0140240845

ISBN-13: 978-0140240849

Product Dimensions: 5.9 x 1.1 x 9.2 inches

## Customer Reviews

Those who already know Niall Ferguson do not need any praise for the books he writes: a few years ago I chanced to read his excellent "The Cash Nexus" and this led me to "The Pity of War" and finally to "The House of Rothschild". Ferguson is a scholar who loves challenges: not just challenging arguments, but also challenges in the sheer volume of sources and research, and finally challenges to the reader in presenting controversial theses (I think specially of those advanced brilliantly, and contentiously, in "The Pity of War" - see my review if interested). This last effort is mainly an attempt to unveil the Rothschild mythology, restoring an historically accurate perspective both of the family saga and of the banking and financial European history from 1798 to 1848. The book is a masterpiece for many reasons: not just story of a family (circumscribed to the male

members), not just story of a great banking institution in the past two centuries, but also comprehensive financial history of the first half of XIX century... "a rich and nuanced portrait" as the book leaflet reads - that reveals and hides, but also creates an appealing and fascinated image of those turbulent years. So, it can appeal the history buff, and all those readers interested in financial history (and speculative bubbles) as well as those interested in biography and cultural history.
